"It's so much fun and profound to connect in nature with fellow humans at the deeper level than our "role skin". It is amazing to have this safe practice ground to connect with human - making mistakes as well as having success experience together :) It was Such a juicy trip and I feel lots of things will continue to unfold coming days and months." - Sayaka

Pre-requisite - a foundation in NVC - see [www.nvcaustralia.com](http://www.nvcaustralia.com)

Connecting with people in a meaningful way ... in a pristine, ancient natural landscape combined with reflective practice getting to know the country one walks on and in creates a sense of belonging and being a humble part of an awesome world to be respected. - NVC bushwalker 2022
